List of Contents

NUMBER 1

Y. Y. Wang, K. Y. Lam and **G. R. Liu**	1	Wave scattering of interior vertical crack in plates and the detection of the crack
K. Homma, C. Miki and **H. Yang**	17	Fracture toughness of cold worked and simulated heat affected structural steel
T. Fett	29	A boundary collocation analysis of a bimaterial plate with different elastic properties
T. Fett	47	Phase-transformation zones and shielding stress intensity factors for cracks in finite bodies
J. B. Soares and **T. Tang**	57	Bimaterial Brazilian specimen for determining interfacial fracture toughness
X. B. Lin and **R. A. Smith**	73	Fatigue shape analysis for corner cracks at fastener holes
A. Bansal and **M. Kumosa**	89	Analysis of double edge-cracked Iosipescu specimens under biaxial loads
	101	Calendar

NUMBER 2

E. Eberhardt, D. Stead, B. Stimpson and **E. Z. Lajtai**	103	The effect of neighbouring cracks on elliptical crack initiation and propagation in uniaxial and triaxial stress fields
J. H. Giovanola and **T. Kobayashi**	117	Mechanics of deformation and ductile tearing in cracked round bar specimens
M. S. Gopala Krishna, A. M. Sriramamurthy and **V. M. Radhakrishnan**	137	Application software for analyses of creep crack growth data
Yu Qiao and **Youshi Hong**	151	An analysis of collective damage for short fatigue cracks based on equilibrium of crack numerical density
Y. Xu	165	Self-similar crack expansion method for two-dimensional cracks under mixed mode loading conditions
P. Kumar and **S. R. Reddy**	183	Experimental determination of interlaminar G_{Ic} using a fully embedded centre-cracked specimen
K. Nakasa, S. Takata and **H. Ichigo**	191	An analysis of island-delamination type cracking pattern in the brittle film coated on a disk under axisymmetric tension

T. C. Miller and **R. Chona** 203 Finite element analysis of a thermally loaded interface crack in a ceramic coating

R. N. Ibrahim, R. S. D. Sayers and **D. Ischenko** 215 Retardation of crack growth in an aluminium alloy using a thermomechanical conditioning cycle

S. Zheng and **C. T. Sun** 225 Delamination interaction in laminated structures

K. S. Venkatesha, T. S. Ramamurthy and **B. Dattaguru** 241 A study of the behaviour of subinterface cracks in bimaterial plates

NUMBER 3

G. A. Plizzari 253 On the influence of uplift pressure in concrete gravity dams

N. K. Mukhopadhyay, S. K. Maiti and **A. Kakodkar** 269 Further considerations in modified crack closure integral based computation of stress intensity factor in BEM

A. N. Galybin 281 Stress intensity factors for two periodical rows of collinear cracks

B.-N. Kim, M. Watanabe, M. Enoki and **T. Kishi** 289 Simulation of fracture behavior in particle-dispersed ceramic composites

D. G. Harlow and **R. P. Wei** 305 A probability model for the growth of corrosion pits in aluminum alloys induced by constituent particles

S. A. Fawaz 327 Application of the virtual crack closure technique to calculate stress intensity factors for through cracks with an elliptical crack front

M. Ferahi and **S. A. Meguid** 343 A novel approach for evaluating weight functions for cracks in finite bodies

Z. Wu and **X. Sun** 353 Multiple fatigue crack initiation, coalescence and growth in blunt notched specimens

Y.-D. Lee and **F. Erdogan** 361 Interface cracking of FGM coatings under steady-state heat flow

X. Wang, S. B. Lambert and **G. Glinka** 381 Approximate weight functions for embedded elliptical cracks

Technical Notes

H. Vaughan 393 Crack propagation and the principal-tensile-stress criterion for mixed-mode loading

Y. J. Xie, P. N. Li and **H. Xu** 399 On K_I estimates of cracked pipes using an elliptical hole model and elementary beam strength theory of cracked beams

T. Yokoyama and **M.-C. Chen** 403 Vibration analysis of edge-cracked beams using a line–spring model

NUMBER 4

P. C. Paris 411 "Cleavage Fracture": An overview of some historical aspects to honor G. R. Irwin

D.N. Dai, G. Härkegard, D.A. Hills and **J. Pross** 415 Simulation of the growth of near-surface defects

R. Mohan 425 Fracture analyses of surface-cracked pipes and elbows using the line-spring/shell model

G. R. Sarrafi-Nour, T. Fett and **T. W. Coyle** 439 A weight function for the crack surface tractions in chevron-notched specimens

P. Pancheri, P. Bosetti, R. Dal Maschio and **V. M. Sglavo** 447 Production of sharp cracks in ceramic materials by three-point bending of sandwiched specimens

L. Jia and **Z. Xiao-Bing** 457 Determination of the amplitudes in analytical asymptotic solutions of a tensile elastic–plastic crack by variational method

T. C. Wang and **P. Ståhle** 471 Stress state in front of a crack perpendicular to bimaterial interface

B. K. Neale 487 The fracture toughness testing of centre-cracked tensile specimens using the unloading compliance technique

K. Sanada, Y. Shindo and **S. Ueda** 501 Singular stresses of cracked woven glass–epoxy laminates at cryogenic temperatures

Sung Ho Kim, Kang Yong Lee and **Moon Bok Park** 509 Mode II stress intensity factors for interlaminar cracked composites under arbitrary shear crack surface loading

C. G. Hwang, P. A. Wawrzynek, A. K. Tayebi and **A. R. Ingraffea** 521 On the virtual crack extension method for calculation of the rates of energy release rate

V. K. Dhirendra and **R. Narasimhan** 543 Mixed-mode steady-state crack growth in elastic–plastic solids

561 Calendar

NUMBER 5

P. H. Wen, M. H. Aliabadi and **D. P. Rooke**	563	Mixed-mode weight functions in three-dimensional fracture mechanics: static
P. H. Wen, M. H. Aliabadi and **D. P. Rooke**	577	Mixed-mode weight functions in three-dimensional fracture mechanics: dynamic
T. Meshii and **K. Watanabe**	589	Closed-form stress intensity factor for an arbitrarily located inner circumferential surface crack in a cylinder subjected to axisymmetric bending loads
T. Fett	599	Friction-induced bridging effects caused by the T-stress
A. Ivankovic and **G. P. Venizelos**	607	Rapid crack propagation in plastic pipe: predicting full-scale critical pressure from S4 test results
J. Betten, S. Sklepus and **A. Zolochevsky**	623	A creep damage model for initially isotropic materials with different properties in tension and compression
Won-Kyun Lim, Jin-Sang Yoo and **Seung-Yong Choi**	643	The effects of concurrent cold-expansion and ring-indentation on the growth of fatigue cracks emanating from circular holes
T. Hoshide, J. Murano and **R. Kusaba**	655	Effect of specimen geometry on strength in engineering ceramics
C. Berejnoi and **J. E. Perez Ipiña**	667	An alternative method for small pop-in assessment
J. H. Chang and **J. B. Yeh**	683	Calculation of J_2-integral for 2-D cracks in rubbery materials
W. M. Hasan, A. Piva and **E. Viola**	697	Parameter estimation from measured displacements of crack edges in an isotropic material

NUMBER 6

G. Ravichandran and **C. T. Liu**	713	Crack tip shielding in elastic particulate composites undergoing damage
T. Ikeda, N. Miyazaki and **T. Soda**	725	Mixed mode fracture criterion of interface crack between dissimilar materials
A. Seweryn	737	A non-local stress and strain energy release rate mixed mode fracture initiation and propagation criteria
X. Gao, J. Faleskog, C. F. Shih and **R. H. Dodds Jr**	761	Ductile tearing in part-through cracks: experiments and cell-model predictions
Chih-Kuang Lin and **Sheng-Tseng Yang**	779	Corrosion fatigue behavior of 7050 aluminum alloys in different tempers

A. Brencich and **A. Carpinteri** 797 Stress field interaction and strain energy distribution between a stationary main crack and its process zone

J. Zhang and **P. Dong** 815 A hybrid polygonal element method for fracture mechanics analysis of resistance spot welds containing porosity

J. Lufrano, D. Symons and **P. Sofronis** 827 Hydrogen transport and large strain elastoplasticity near a notch in alloy X-750
